SESSION 2019-20

FORMATIVE ACTIVITIES

Class : 1

Subject : Mathematics

Paper Code : 1033

Maximum Marks : 10

Instruction : Each activity carries 05 marks. Teacher can choose one activity from each section.

SECTION A

(Marks : 05)

LO – M101 - Classifies objects into groups based on a few physical attributes such as shape, size and other observable properties including rolling and sliding recites number names and counts objects up to 20, concretely, pictorially and symbolically

Activity 1. Check the movement

The class is asked to collect objects of different shapes. Now, the objects are put in the middle and students sit in a circle. They are then ask to show how a object will move.
Ex. A match box will slide.

Activity 2. Match the figures

The teacher draws the pictures of some things and the shape of the things in two separate columns and students match them.

Activity 3. Roll them out

The children are made to sit in groups and given a number of objects like chalk, marbles, buttons, safety pins, bottles etc. They are then asked to find out which of them can be rolled.

SECTION B

(Marks : 05)

LO – M107 - Observes, extends and creates patterns of shapes and numbers. For example, arrangement of shapes/ objects/ numbers, etc.:- 1,2,3,4,5,...

Activity 4. Set the pattern

The teacher hangs a calendar with big figures and letters in the class. The students are then asked how many same kind of patterns are there in the calendar.

Activity 5. How does your kite look

The children are given papers to make kites in the class. The teacher instructs the students to make kites of different shapes like triangle, square, circle etc.

Activity 6. Draw your face

Ask the children to draw faces with shapes like triangle, square, circle etc. To show nose, eyes etc.
